Background In April 2013, the Government announced new funding of £150 million for Physical Education and Sport. This funding should be used to improve the quality and breadth of PE and Sports provision. The funding is ring fenced to be used for sport specific areas to make an impact in PE and Sport in schools.

Schools are free to determine how best to use this funding to improve the quality and breadth of PE and Sport provision, including increasing participation in PE and Sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

There are 5 key indicators that schools should expect to see improvement across:

1. The engagement of all pupils in regular physical activity (30 minutes in school)
2. The profile of PE and sport is raised across the school as a tool for whole school improvement.
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport.
4. Broader experience of a range of sports and activities offered to all pupils.
5. Increased participation in competitive sport.

Vision

Our vision is to help and encourage every child to develop a love of sporting and physical activities and to understand the importance of being active and how this contributes to our health and well-being. In addition, we believe that an exciting, varied PE curriculum, combined with extra-curricular opportunities, can help to promote other valuable learning attitudes such as cooperation, having a go, not giving up and a drive to succeed. Our aim is to increase teacher delivery of high quality PE, broaden the sporting opportunities and experiences available to pupils and to improve health and fitness.

We have planned our PE spending carefully to ensure that it has been spent to maximum effect. This has meant making informed decisions about our spending. Please see funding spending document below.

Sustainability

The provision of sports coaches for curriculum time and after school clubs will be reviewed periodically, changed where necessary and continued wherever possible.

A variety of sporting and physical opportunities provide a range of experiences and expertise for adults and children alike which can be pursued further if they remain interested.

This provision gives the opportunity to try a physical activity that may not be ordinarily experienced in school life. Children and adults experience activities they may wish to take up in the future.

Fun, physical activities help children to develop their levels of fitness and encourage them to be active which we hope will be sustained in the future.

Children are supported to have positive experiences of sport, competition and physical activity which will continue as they grow older.
